Skype for Business Online
Online meetings and teamwork made easy

⚠ Challenge:

- Enable secure, enterprise grade communication

- Support collaboration between locations

- Manage internal and external participants in conference calls

👍 Solution:

- Secure HD audio and videoconferencing

- File and desktop sharing, polls and whiteboard to enable co-working and co-editing

- Integrated with all Office apps for easy access and collaboration

Benefits:

- Secure and compliant communication withing and outside of company

- Effective teamwork across locations

- Enterprise grade solution and capabilities

Scenarios	Solution capabilities	Tech and products
• Use of consumer chat and conferencing solutions	• Secure, HD audio and video conferencing with easy recording for later sharing	• Skype for Business Online
• Confidential information is shared, leakage is not acceptable	• Instant messaging	
• Lack of integrated, secure chat and conferencing solution	• File sharing for co-editing	
• Need of differentiation for internal and external conferencing participants	• Desktop sharing for remote management	
	• Information on availability and presence
